Professional Experience

Web Developer | *Siddhagiri Metals & Tube Pvt. Ltd., Mumbai*
Full-Time

Present

- Built and deployed a complete **B2B Shopify e-commerce platform** from scratch – handling store architecture, theme customization, product catalog (**50+ SKUs**), and checkout optimization **independently** with zero downtime incidents.
- Developed **custom Liquid templates**, JavaScript components, and CSS animations to create bespoke UI sections and landing pages beyond default theme capabilities – improving user engagement and conversion flow.
- Integrated **5+ third-party Shopify apps** including payment gateways (Razorpay, Stripe), inventory management systems, and CMS workflows to streamline the online buying experience.
- Optimized store performance achieving **90+ Google PageSpeed score** through image compression, lazy loading, script deferral, and asset optimization.
- Owned the complete development lifecycle – requirements gathering, design-to-code, QA testing, deployment, and ongoing maintenance as the **sole developer** on the project.

React.js Frontend Developer | *CodTech IT Solutions, Remote*
Internship

Jan 2026 - Feb 2026

- Developed responsive **React.js applications** using functional components and hooks (**useState**, **useEffect**, **useCallback**) following modern best practices.
- Implemented **pixel-perfect UI** from Figma designs using Tailwind CSS with high design accuracy across mobile, tablet, and desktop breakpoints.
- Improved component reusability by building a **shared component library** – reducing development time by approximately **30%** across the project.
- Used AI-assisted development tools (**Claude**, **VS Code**) to accelerate code reviews and maintain clean code standards.

WordPress Developer and Team Lead | *MCM BPO, Mumbai*
Full-Time

May 2024 - Dec 2025

- Developed and maintained **10+ production WordPress websites** for high-traffic clients including *mycountrymobile.com*, *acepeak.ai*, *ringflow.com*, *teloz.com*, *callmama.com* – serving a combined **100,000+ monthly visitors**.
- Customized WordPress themes using **PHP, CSS, and JavaScript** – building custom post types, ACF fields, and template modifications beyond standard page builders (Elementor).
- Set up and customized **WooCommerce stores** with payment gateway integration (Razorpay, Stripe), product management, and checkout flow optimization.
- **Promoted to Acting Team Lead** within 8 months – managed a team of 3-4 frontend developers during night operations, assigned tasks, reviewed code quality, and ensured **100% on-time delivery**.
- Reduced UI bug rate by **40%** by implementing systematic cross-browser testing across Chrome, Firefox, Safari, and Edge before each production deployment.

Projects

Task Management System – Full Stack Web Application

May 2026

React.js | Vite | Context API | Python | Django | PostgreSQL | JWT | Vercel | Railway

- Built a **full-stack task management system** with JWT-based authentication and secure password hashing – designed the complete **React.js frontend** (UI, state management, Axios integration) with backend powered by Django REST Framework and PostgreSQL, referencing open-source resources and documentation.
- Designed and implemented a **normalized PostgreSQL schema** with user-task relationships and role-based access control (RBAC) – assignees can update task status; assigners manage due dates – enforced at the API level.
- Built responsive React UI using **Context API** for global state and Axios interceptors for JWT token handling, with proper loading, empty, and error states throughout.
- Deployed frontend on **Vercel** and backend on **Railway**, configured CORS, environment variables, and SPA routing for production reliability.

AI Resume Analyzer – ATS Optimization Tool

Apr 2026

React.js | Tailwind CSS | Claude API | OpenAI API | Vercel

- Built an **AI-powered SaaS tool** that parses PDF resumes, evaluates ATS compatibility scores, and delivers keyword optimization suggestions using **Claude & OpenAI APIs**.
- Handled PDF parsing and **AI prompt design** to deliver section-wise resume feedback; integrated API responses into a clean, real-time results UI.
- Designed a fully responsive **React.js + Tailwind CSS** dashboard with score visualization, analysis breakdown, and live AI feedback rendering.

17+ Live Production Websites

2024 - 2025

WordPress | PHP | WooCommerce | HTML | CSS | JavaScript | Elementor

- Developed and deployed **17+ production websites** serving a combined **500,000+ monthly page views** – including *mycountrymobile.com*, *acepeak.ai*, *ringflow.com*, *telo.com*, *callmama.com*, *twiching.ai*.
- Built **custom WordPress themes** and WooCommerce stores using PHP, including custom post types, taxonomies, ACF fields, and template-level modifications to meet specific client requirements.
- Achieved consistent **85+ PageSpeed scores** across all sites through image optimization, caching configuration, and performance tuning.
