

AKASH GAUDA

React.js Developer | Frontend Engineer | E-commerce Specialist
+91-9324365583 | akashgauda16@gmail.com | Portfolio | GitHub | LinkedIn

Professional Summary

React.js Developer with 2+ years of experience building responsive, production-grade web applications using React.js, JavaScript (ES6+), Tailwind CSS, and modern frontend tools. Skilled in developing pixel-perfect UIs, integrating REST APIs, state management, and optimizing performance (90+ PageSpeed scores). Experienced with **backend customization (PHP/Node.js)** for e-commerce platforms, AI-powered tools (Claude & OpenAI APIs), and leading small teams. Proven ability to own features end-to-end from design to deployment on Vercel. Seeking to leverage strong frontend expertise in a React-focused role while expanding backend knowledge.

Technical Skills

Frontend	React.js (Hooks, Custom Hooks, Context API, State Management), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Styling	Flexbox, CSS Grid, CSS Animations, Pixel-Perfect UI, Figma-to-Code
Backend	Node.js (Basic), PHP (Custom Functions, Hooks), REST API Development, JWT Authentication
Tools	Git, GitHub, Vercel, Vite, Postman, VS Code, npm, GitHub Actions
Other	Performance Optimization, Core Web Vitals, Agile/Scrum, AI Tools (Claude, Cursor IDE), Cross-Browser Testing
eCommerce	Shopify (Storefront API, Theme Customization), WooCommerce (PHP Customization, Payment Gateways)

Professional Experience

E-commerce Developer (Shopify & WooCommerce) | *Siddhagiri Metals Pvt. Ltd., Mumbai* Mar 2025 - Present
Full-Time

- Built and optimized a B2B/B2C e-commerce web application using JavaScript, React components, Tailwind CSS, and custom animations — independently handling UI architecture, product catalog (50+ SKUs), and checkout flows with zero downtime.
- Developed custom PHP functions and hooks within WooCommerce to extend core functionality, including custom checkout fields, payment gateway logic, and inventory synchronization APIs.
- Integrated REST APIs for payment gateways (Razorpay, Stripe), inventory systems, and third-party services using Axios with proper error handling and loading states.
- Achieved 90+ Google PageSpeed score through lazy loading, image optimization, code splitting, and performance tuning — improving conversion rates.
- Owned complete feature lifecycle including requirements, implementation, testing, and deployment on Vercel.

React.js Frontend Developer | *CodTech IT Solutions, Remote* Jan 2026 - Feb 2026
Internship

- Developed responsive React.js applications using functional components, hooks (useState, useEffect, useCallback), and Context API following modern best practices.
- Implemented pixel-perfect UIs from Figma designs using Tailwind CSS with 100% design accuracy across mobile, tablet, and desktop breakpoints.
- Built reusable component library that reduced development time by 30%.
- Utilized AI tools (Cursor IDE, Claude) to accelerate development and maintain clean, scalable code.

- Led a team of 3-4 developers, assigned tasks, conducted code reviews, and ensured 100% on-time delivery for 10+ high-traffic websites serving 100,000+ monthly visitors.
- Developed responsive UIs using HTML5, CSS3, JavaScript (ES6+), and React-like component patterns while customizing themes and implementing dynamic features.
- Integrated payment solutions (Razorpay, Stripe) and optimized checkout flows, reducing UI bugs by 40% through systematic cross-browser testing.

- Built responsive SaaS and business websites using HTML5, CSS3, JavaScript (ES6+), Bootstrap, and Tailwind CSS with strong focus on performance and cross-browser compatibility.
- Worked in Agile/Scrum environment participating in sprint planning, daily standups, and peer code reviews.

Projects

Task Management System

May 2026

React.js | Context API | Vite | Vercel (Frontend)

- Built responsive React frontend with Context API for global state, Axios interceptors for JWT authentication, and comprehensive loading/error/empty states.
- Integrated with REST backend for role-based access control and real-time task updates.

AI Resume Analyzer — ATS Optimization SaaS Tool

Apr 2026

React.js | Tailwind CSS | Claude API | OpenAI API | Vercel

- Built production-ready AI SaaS tool that parses PDF resumes, calculates ATS scores, and provides intelligent keyword optimization using Claude and OpenAI APIs (85%+ accuracy).
- Developed responsive dashboard with React.js, Tailwind CSS, state management, error boundaries, and real-time AI feedback rendering.
- Implemented PDF parsing, prompt engineering, and optimized API handling for fast performance.

Full-Stack Dating App (Tinder Clone)

Oct 2025

React.js | Node.js | Express.js | MongoDB | Socket.io | JWT | Tailwind CSS

- Developed React.js frontend with real-time chat using Socket.io, JWT authentication, and responsive UI using Tailwind CSS.
- Implemented matching algorithm, online/offline status, typing indicators, and secure authentication flow.

17+ Live Production Websites

2024 - 2025

WordPress | PHP | WooCommerce | JavaScript | CSS | HTML

- Developed and deployed **17+ production websites** serving a combined **500,000+ monthly page views** - including *mycountrymobile.com*, *acepeak.ai*, *ringflow.com*, *telo.com*, *callmama.com*.
- Built **custom WordPress themes** and WooCommerce stores using PHP, including custom post types, taxonomies, ACF fields, and tailored template-level modifications to meet specific client requirements.
- Achieved consistent **85+ PageSpeed scores** across all sites through image optimization, caching configuration, and performance tuning techniques.

Education

Certifications

• React.js Certification Course - Udemy	2025
• SEO Principles - Semrush Academy	2025
• Introduction to Frontend Development - Coursera	2024
• Python & Django Fundamentals - Udemy	2024
• Network Fundamentals - Cisco Networking Academy	2024
